

# General Relativity III: Cosmology

## Contents

- Introduction to Cosmology
- Cosmological principle and Robertson-Walker metric
- Redshift distance relation
- Cosmic distance ladder
- World model
- World state
- Cosmological standard model
- Cosmic microwave background radiation

## Organizational Remarks

- 2 hours per week
- 4 ECTS credits
- Certificate for active participation:
  - Seminar talk of 15 minutes at semester end
  - Suggestions for topics announced beginning of June
- **Oral module exam possible**
